

## **EYE PROTECTION CERTIFIED FOR SQUASH**

Although the risk of injury in squash is low, it is recommended that protective eyewear, manufactured to an Appropriate National Standard, is worn properly over the eyes at all times during play and under WSF World Championship Regulations eyewear must be worn by all Juniors (U19) and when playing International or Hardball Doubles.

**All protective eye wear must be tested with:  
ISO18527-2:2021**

**ISO18527-2:2021 is a published harmonized standard and thus gives presumption of conformity for relevant legislation and this ensures that the eyewear can be sold globally.**

If your product is being sold in Great Britain or the USA you would also need to test to the appropriate National Standard. Appropriate National Standard protective eyewear is defined as having undergone stringent testing and has been passed as "suitable for squash" by the National Standards Associations for Racket Sport Eye Protection of Great Britain or the United States.

The Standards available for Squash are:

1. **ISO18527-2:2021 (International standard)**
2. **BS7930-1 (UK standard)**
3. **F3164-19 (US standard)**

WSF Certification of protective eyewear is granted once it has been verified that it is suitable for squash from a copy of the relevant Report issued by the National Standards Authority or Authorised Notified Laboratory and forwarded to the WSF by the manufacturers/suppliers.

So in short, you will need to get your eyewear tested in accordance with the above International Standard, and if required National Standards, and then send a copy of the report to the WSF for review; accompanied by the completed Application Form and the annual fee.

If Certified a WSF logo may be used on promotional materials and packaging and your product would be added to the listing of WSF Certified Tested Eyewear.

A test report is valid for five years, and your product must be retested and a valid report submitted for certification to take place.

## **APPLICATION FORM**

Brand Name:

Certified Models:

Contact name:

Company Position:

Email address:

Tel No.:

Having been passed as "suitable for squash" in accordance with **ISO18527-2:2021** (and by the National Standards Associations for Racket Sport Eye Protection of Great Britain or the United States if applicable), I wish my products to be Certified for Squash from:

Certification fees are UK£515 per year payable annually on the 1 January. However, for applications granted during a year the fee will be reduced pro-rata for the number of months remaining down to a minimum of 50% of the applicable fee.
